SKILLS

Soft Skills

- Critical Thinking
- Problem Solving
- Structured Communication
- Cross-Department Leadership
- Stakeholder Coordination

Documentation & Governance

- SOP/Playbook & Policy Development
- Knowledge Base Architecture
- Documentation Lifecycle Management
- ISO-aligned Documentation Practices
- Metadata & Taxonomy Design
- Information Classification (TLP 2.0)

PROFILE

Documentation and Process Governance professional specializing in knowledge systems architecture, SOP and playbook development, and ISO-aligned documentation frameworks. Experienced in leading large-scale documentation migrations, structuring enterprise knowledge bases, and standardizing operational processes across technical, engineering, and professional services environments. Strong background in process modeling, stakeholder collaboration, and lifecycle governance of documentation assets.

Completed formal training in ISO 9001:2015 implementation and auditing principles, reinforcing expertise in quality-oriented documentation structures and compliance-aligned governance environments.

EXPERIENCE

2024 - Present

Documentation & Process Governance Specialist | Alliance Technologies

- Lead enterprise documentation governance across engineering, technical assistance, and professional services teams.
- Design and implement ISO-aligned documentation frameworks to standardize operational processes.
- Architect and restructure knowledge bases to improve discoverability, lifecycle control, and content scalability.
- Develop SOPs, playbooks, policies, and technical documentation supporting IT operations and project delivery.
- Manage documentation migrations and cross-platform consolidation initiatives.
- Collaborate with executive leadership and technical stakeholders to formalize operational processes into structured documentation systems.

- Documentation Migrations & Standardization
- Version Control & Governance

Process & Technical Skills

- Business Process Mapping
- Workflow Design & Optimization
- Admin & User Guide Development
- Process Flow Diagram Creation
- Requirements Gathering

Systems & Tools

- Halo
- IT Glue
- SharePoint
- BookStack
- Microsoft 365
- Visio / Lucidchart / Mermaid
- MS Office Suite

- Create process models and workflow diagrams to enhance operational clarity and compliance alignment.
- Designed and deployed a SharePoint Online document-classification and lifecycle-governance system, implementing TLP-based sensitivity marking and ISO 9001-aligned publish-status controls with automated visual formatting.

August 2022 – 2024

Business Process Analyst / Technical Writer | Get Staffed Up

- Managed and standardized organizational documentation under structured quality frameworks.
- Conducted stakeholder interviews to capture operational requirements and translate them into formal procedures.
- Developed policies, SOPs, and workflow documentation across departments.
- Designed process flow diagrams to support operational improvements and solution implementation.
- Supported documentation governance and cross-department alignment initiatives.

March 2021 – December 2021

Operations Coordinator | Optimize Courier

- Coordinated logistics operations ensuring timely, compliant delivery workflows.
- Managed supplier and client communications to maintain operational reliability.
- Resolved operational issues related to delays, inventory discrepancies, and process inefficiencies.

November 2017 – March 2020

Technical and Administrative Manager | Tecniseguros S.A

- Managed client documentation, policy administration, and claims oversight.
- Conducted risk assessments and ensured documentation accuracy and regulatory compliance.
- Oversaw operational and administrative functions supporting insurance services.

EDUCATION

Bachelor's Degree in Industrial Relations -
Universidad Tecnológica de Honduras -

CERTIFICATIONS

ISO 9001:2015 Lead Implementer & Lead Auditor – Course Completion, Udemy (Mar. 2026)
ISO 9001:2015 QMS Lead Auditor – Course Completion, Udemy (Feb. 2026)
